

# Office of Water/ Office of Science and Technology

## Recent Sediment Related Publications 5/30/01

# Outreach Materials

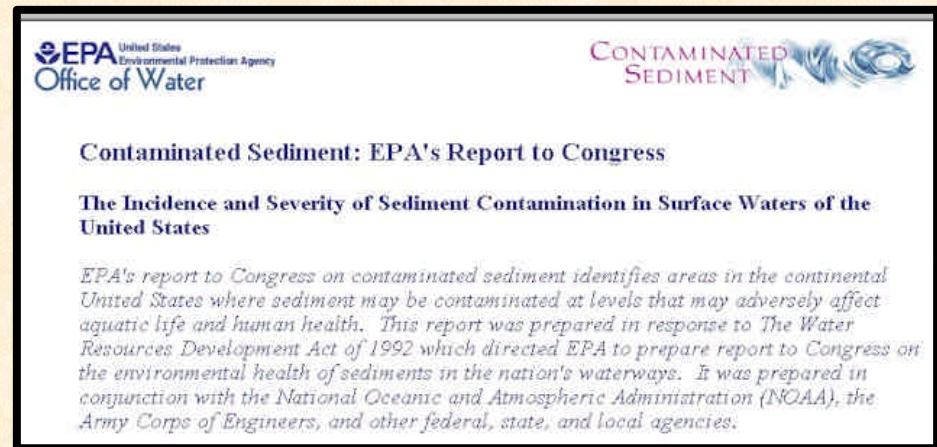

- **Brochures**
  - Introduction to Contaminated Sediments
  - Should I eat the Fish I Catch?
- **Posters**
  - A Healthy Ecosystem
  - Fish Can Be a Healthy Choice
- **Newsletters**
  - Contaminated Sediments News
  - Fish Advisory News and Events

# Public's Right to Know

## National Sediment Inventory - Biennial Report to Congress

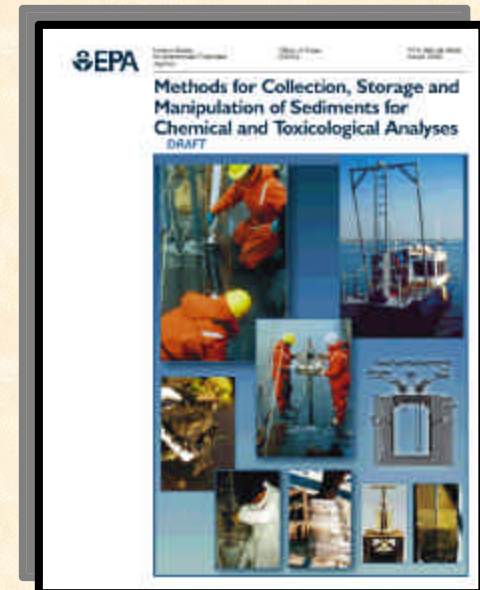

- National Listing of Fish Consumption Advisories

# Methods

- **Freshwater Sediment-Associated Acute Toxicity**
- **Marine and Estuarine Sediment-Associated Chronic Toxicity**
- **Collection, Storage & Manipulation of Sediments for Chemical & Toxicological Analysis**

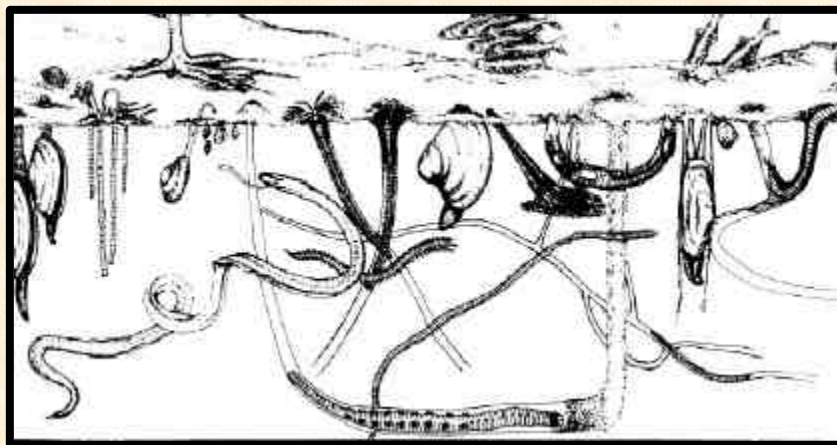

# **Assessments**

- **Draft Equilibrium Partitioning Guidelines (ESGs) for protection of benthic organisms**

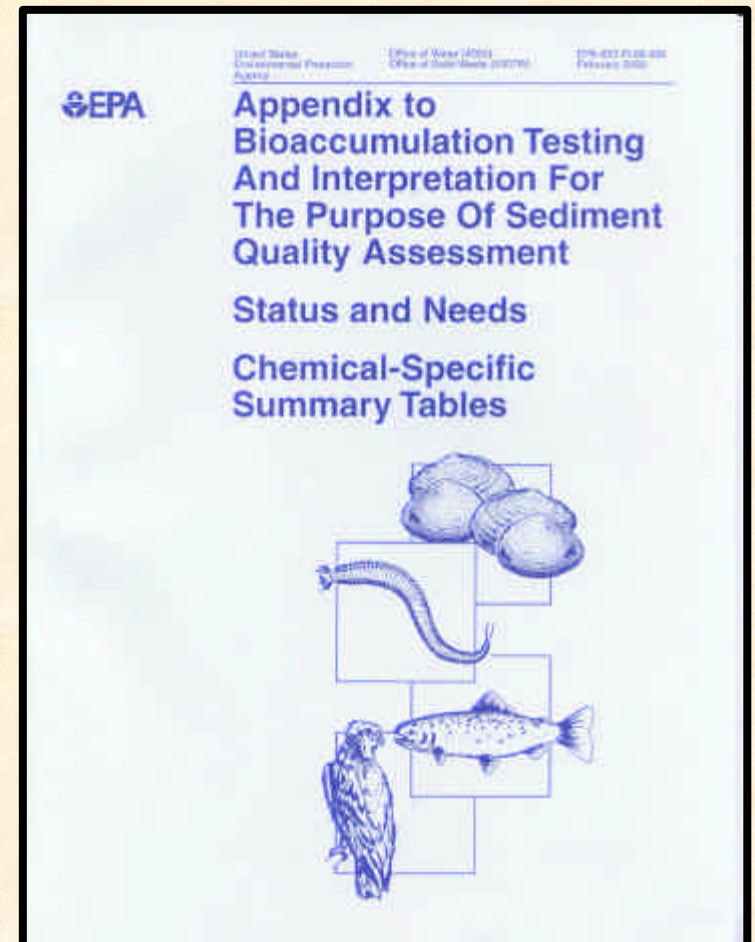

- nonionic organics
- dieldrin, endrin;
- metal mixtures
- PAHs

- **Working Draft Implementation Framework**

# Assessment

- **Bioaccumulation Testing and Interpretation**
- **EPA Contaminated Sediment Mgmt Strategy**
- **Guidance for Assessing Chemical Data for Use in Fish Advisories**
- **National Study of Chemical Residues in Lake Fish Tissue**

# **OST Contacts**

- **Tom Armitage**      **armitage.tom@epa.gov**
